Green Open Access

Self-Archiving

8. Oktober 2021
Simone Gruner

Agenda

1. What is Open Access?
2. Green Open Access
3. German legal framework
4. Useful tools
5. Preprint Servers
6. Qucosa - SLUB service for self-archiving

An open white door with a brass handle is set in a room with light wood floors and white walls. The door is open, revealing a bright, empty room beyond. The text "What is Open Access?" is centered in the doorway.

What is
Open Access?

Open Access

Definition

What is Open Access?

By "open access" to this literature [= peer-reviewed journal articles / unreviewed preprints], we mean its **free availability on the public internet**, permitting any users to read, download, copy, distribute, print, search, or link to the full texts of these articles, crawl them for indexing, pass them as data to software, or **use** them for any other lawful purpose, **without financial, legal, or technical barriers** other than those inseparable from gaining access to the internet itself. The only constraint on reproduction and distribution, and the only role for copyright in this domain, should be to give **authors control over the integrity of their work** and the right to be **properly acknowledged and cited**.

Open Access Strategy and Services

Open Access at the Technische Universität Dresden (TUD)

TUD Open Access Resolution (2012)

- Explicit recommendation for publication in OA journals
- Strong recommendation for publishing on Qucosa both as first publication (gold OA) and self-archiving (green OA)

[TUD-Open Access Resolution](#)

A photograph of a lush green wheat field. The wheat stalks are in the foreground, slightly out of focus, with a small butterfly visible in the middle ground. The background shows a line of trees under a clear blue sky.

Green Open Access

Why should I self-archiving my publication?

Arguments

Green Open Access

Greater
visibility and
citation
frequency of
publications

Fair use of
Taxpayers'
money,
Research
funders
guidelines

Promotion of
Research
Efficiency

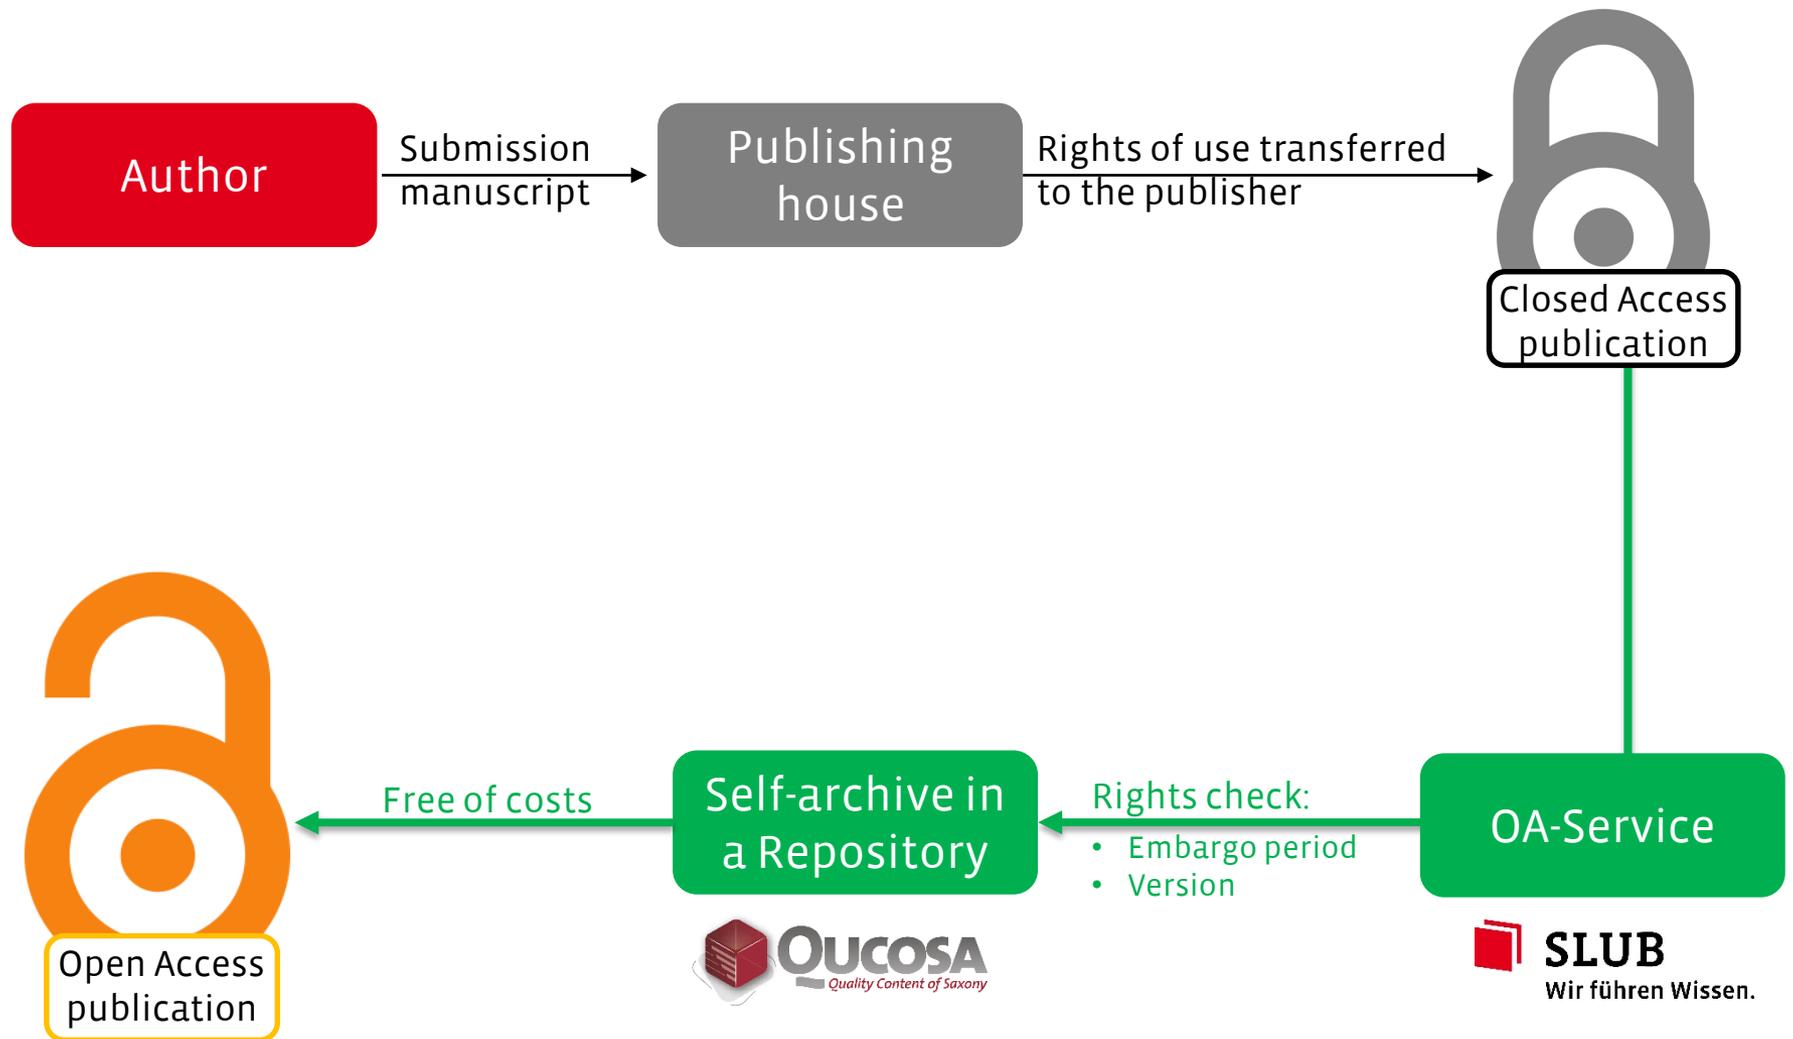

Good
findability
via search
engines and
indexing
services

Promotion of
international
and inter-
disciplinary
cooperation

Open Access

The Green Path

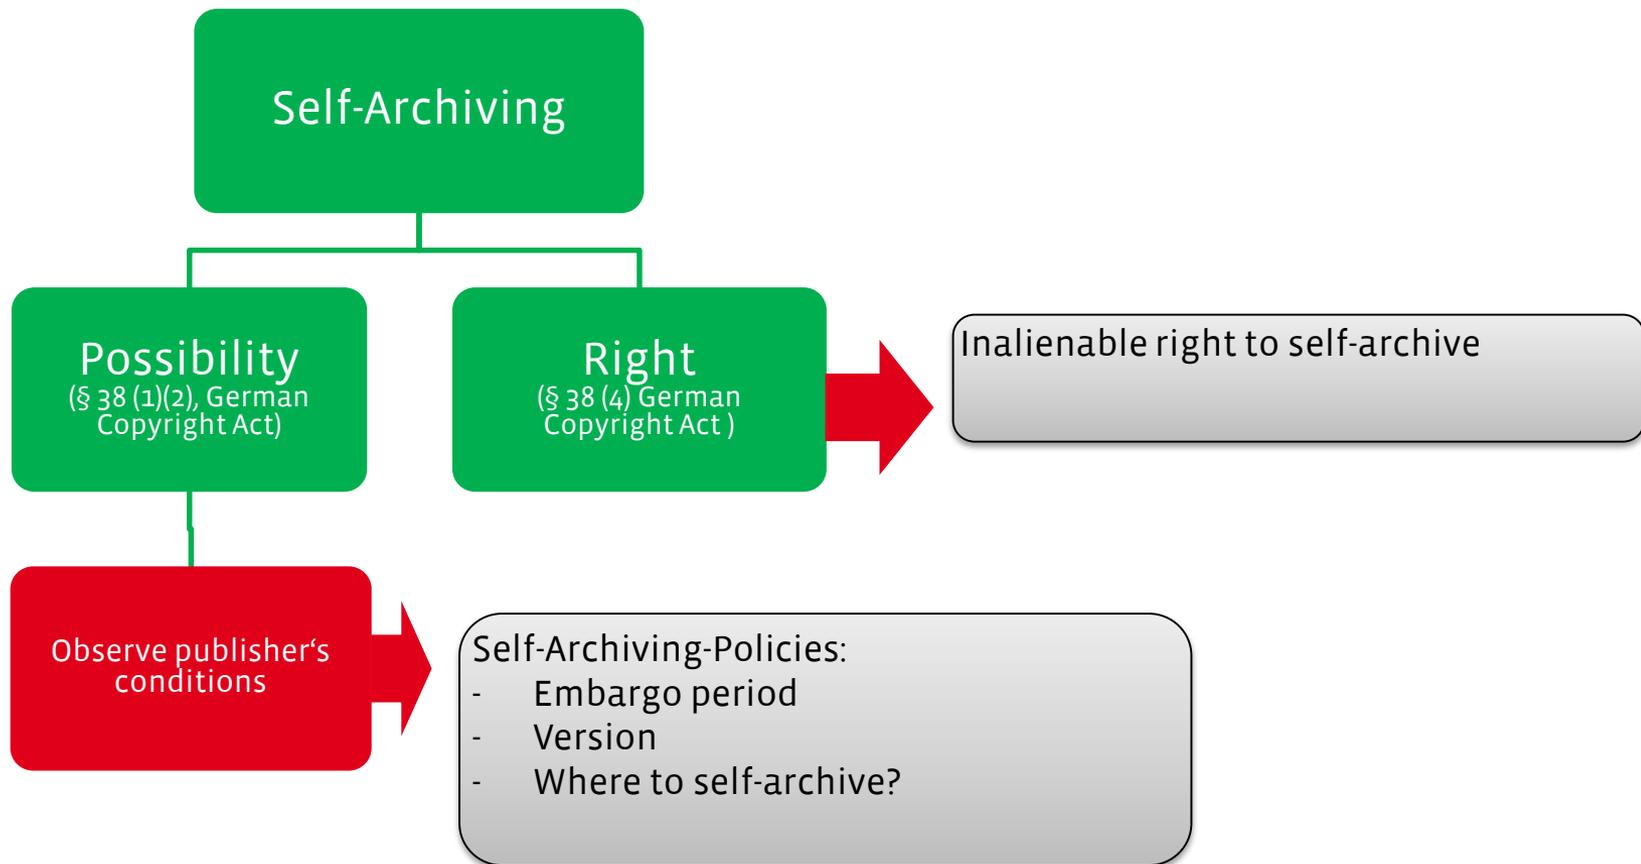

German legal framework

The Green Path

German legal framework

Am I simple allowed to self-archive my publication?

Inalienable right to self-archive

§ 38(4) German Copyright Act

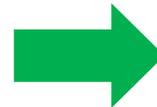

- Author's right to self-archive, despite transfer of exclusive rights to the publisher

Scientific publication as of
January 1, 2014

Publication developed within a
research activity

At least half publicly funded

Journal of the original publication
publishes at least twice a year

Embargo period: 1 year

Manuscript version (post-
print)

Exclusion of commercial
purpose

Reference of the original
publication

Keep the Postprint!

Preprint

- Draft of the manuscript
- before formal peer review

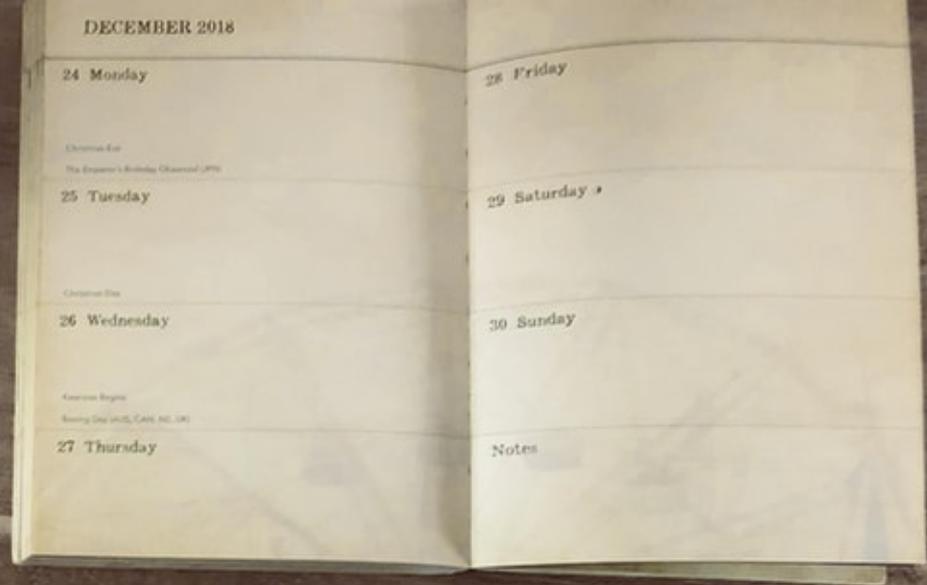

Postprint

- after formal peer review
- Author's Accepted Manuscript
- Not formally formatted

Published version

- Official version
- Reviewed and formally formatted

Postprint
can mostly
be self-
archived.

Useful Tools

Useful tools for self-archiving

Sherpa Romeo

The screenshot shows the Sherpa Romeo interface for the ACM Journal on Experimental Algorithmics. It features a green header with navigation links: About, Search, Statistics, Help, Support Us, Contact, and Admin. Below the header, the journal title is displayed. The 'Publication Information' section lists the title, ISSN (1084-6654), URL (http://www.jea.acm.org/), and publisher (Association for Computing Machinery (ACM)). The 'Publisher Policy' section explains that Open Access pathways are listed by article version and provides a table of options for Published, Accepted, and Submitted versions.

Article Version	Open Access Pathways
Published Version	None, CC BY, Any Website, Journal Website
Accepted Version	None, Non-Commercial Institutional Repository, Funder Designated Location, +3
Submitted Version	None, Non-Commercial Repository

Preprint Servers

Publishing on Preprint servers (examples)

Horizon Europe Programme Guide Version 1.2 04 October 2021 p.43

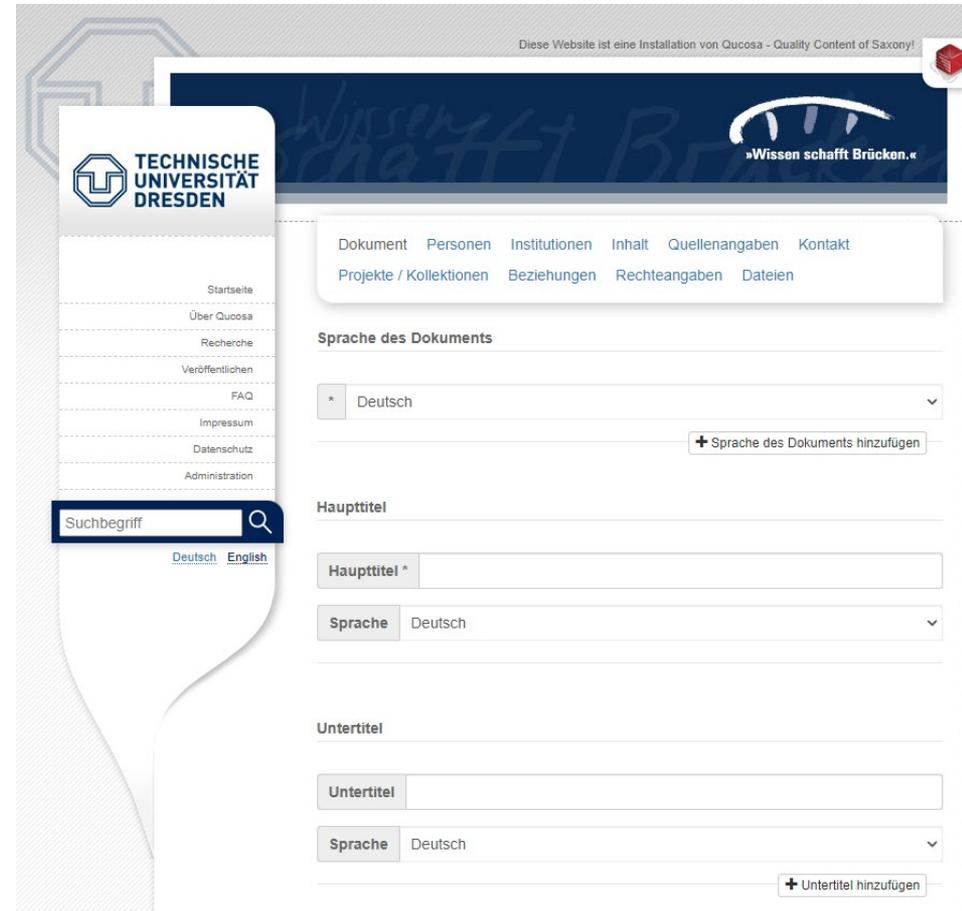

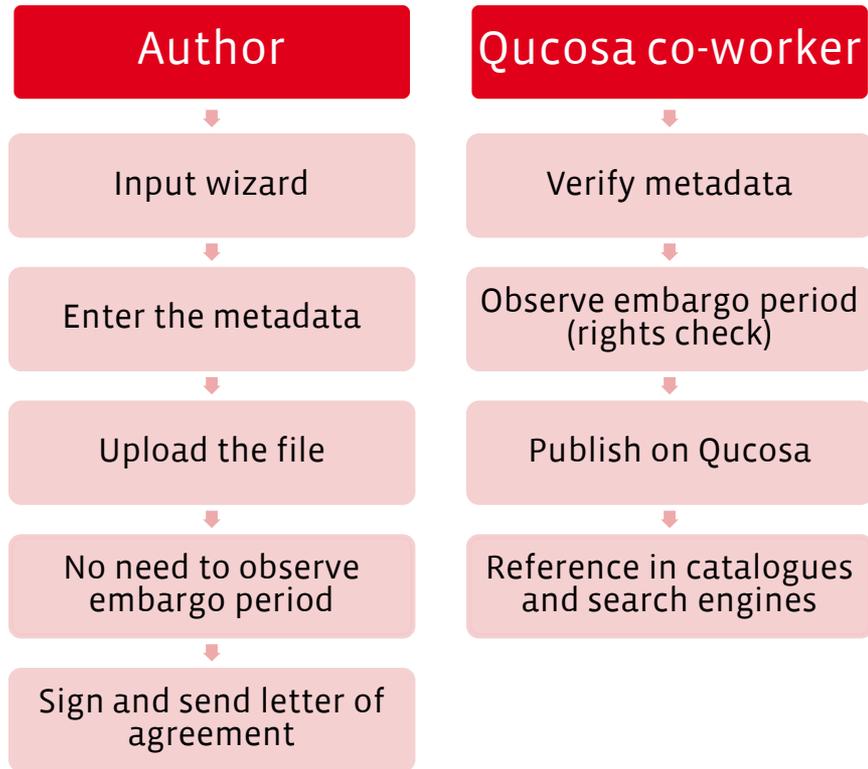

Swan (2010) attributed the high citation figures of open access publications to, among other things, their rapid availability.

Self-archiving on Qucosa
